

Landscapes for the Future Free Workshops! **MORE DATES ADDED!**

Landscape for the Future 1—Lose the Lawn

July 25 and 30: As much as we coddle our grass, it is tough to kill!
Learn several different ways to accomplish this.

Landscape for the Future 2—Design Your New WaterWise Landscape

August 1 and 6: What do you want in your new yard? Choices range from weed cloth and rocks to a colorful garden that changes with the seasons and invites birds and butterflies.

Landscape for the Future 3—Irrigating Your New Landscape

August 8 and 13: Learn the water needs of your new landscape. Learn how to adjust your existing irrigation system or put together a simple micro-irrigation system.

Landscapes for the Future 4—Landscape Ecology

August 15 and 20: This is where we can truly create value with our landscapes. Learn some basic ecological concepts that will make your garden thrive and come alive.
